1. This memorandum is in answer to your requirement dated 28 December 1962 which requested a 25 nm radius search around Tula, USSR for evidence of possible anti-missile electronics (similar to HEN ROOST) and their associated communications.

2. No possible anti-missile electronics or associated communications facilities were identified in the search area. Heavy clouds, haze, and semi-darkness hampered the search. None of the available photography met minimum standards for identification of HEN ROOST-type facilities.
